THE UNITED STATES OF EUROPE

"…To build a kind of United States of Europe"[1]
Winston Churchill

"Wir müss" [2]
Angela Merkel

"The arc of history bends towards justice"[3]
Martin Luther King

[1] Victor Hugo was the philosopher-poet who predicted the emergence of *The United States of Europe* (USEU), based on the popular idea of a Hegelian superstate at that time. Winston Churchill made it ever more popular. I would like to thank Jean-Marie Le Pen for discovering this document.
[2] Angela Merkel made it possible for millions of Syrians to seek safe refuge in Germany, saving their lives.
[3] This is Barack Hussain Obama's (former American president) favourite quote.

THE UNITED STATES OF EUROPE

As a classical liberal, I have always opposed Western identity politics. I am also a lifelong critic of radical Islam. I endorse Kemalism within the context of Turkish politics.[4] I also endorse a vigorous critique of Israel. I oppose communism, which *necessarily* evolves into imperialism. As such, I did endorse ethical white nationalism for years.

I oppose racism against innocent people of color, especially violent racism, keeping in mind that Whites have the inalienable right to maintain a majority in their homelands. For example, The European Court of Human Rights has dismissed the argument that European nations should "accept *entire populations* from the developing world, countries at war or those ravaged by natural disasters."[5] This does not mean that asylum rights, especially reasonable asylum rights, should be abandoned.

The European Union has changed and is changing for the better. Back in 2018, with a nominal GDP of $16 trillion and at the cusp of Brexit, the European Union was in great danger. European revanchists who threatened to exit Europe (Grexit, Frexit, Nexit) have stopped voicing such claims since. EU's GDP is now $20 trillion, GDP-PPP $30 trillion. The European Union has signed defence treaties with Switzerland, UK, Canada – and has now seized all Rothschild funds (after a series of investigations into various crimes, including incest[6]) to create Paneuropean troops.[7]

I am supportive of Taiwan's struggle against CCP (Communist Party of China). I would like to thank Nancy Pelosi for visiting Taiwan when China sought to annex the island.[8] I have always opposed Zionists collaborating with conservatives, but I would have supported American troops in South Korea and Bosnia. While I am somewhat critical of past European

colonialism, keeping in mind the historical context, I strongly disagree with attempts to vilify the European Union through "human rights imperialism."

The United Kingdom needs a reversal of Brexit, perhaps even a conservative reversal, in keeping with my original arguments.[9] Ireland now has classical liberal republicans who endorse a United Ireland.[10] According to Trump, Ireland must stand united. [11] Scottish independence has never been more popular than now.[12] Brexit is inescapable because of democratic pressure,[13] but I never wanted The United Kingdom to fall apart. I believe in the indestructibility of The Crown. I also oppose efforts to eliminate The House of Lords. Brexit, as it were, is almost over.[14] According to Charles Bernier, Great Britain can keep the pound but not the border rules that were in place before Brexit.[15]

Based upon universal agreement, London shall host *The World Bank (*formerly, *Central Bank of London).* The parliament of *The United States of Europe* shall hereafter be *The European Parliament.* The United States shall retain *The White House,* which shall serve as the center of executive power. The supreme judges shall be seated upon **SEUSC,** *Supreme European Union & United States Court* --- formerly *The European Court of Human Rights* (the living conscience of Europe). SEUSC shall incorporate the legal canon of The United States Supreme Court. Switzerland shall host *World Court of Arbitration.* Turkey, which has NATO's second largest army, shall join the United States of Europe's Space Force (USSF).

The United Nations shall not be abolished and cannot be abolished. *The International Court of Justice* (ICJ) shall stand and so shall *The International Criminal Court* (ICC), independent and free. ICC has now pressed war crimes against Israel, United States, Russia – ever the prosecutor. I do not endorse ICC pressing war crime charges against the United Kingdom[16] --- nor Australia.[17] I oppose ICC investigating the United States over "war crimes" in Afghanistan, while I endorse ICC's investigation against "black box" torture sites in Eastern Europe and elsewhere.

I am a "person of interest" to The International Criminal Court, based on extensive correspondence (cf. *Defending The West*). I have supplied ICC with vital information multiple times.

ICC CORRESPONDENCE

1. Sending evidence to The European Court of Human Rights, The International Criminal Court, The European Court of Justice, The International Court of Justice (and many European politicians) about the criminal collusion between China and Israel in the development of COVID-19. The virus in question was developed by Charles Lieber and Shi Zhengli. The complaint also raised concerns about Jewish nepotism in The United States. Most world leaders were privy to this complaint **[2019-2020]**.

2. Sending evidence to The International Criminal Court about rogue AI & Epstein island (child exploitation, child enslavement, child murders) **[2024].**

I oppose war crimes of every stripe, no matter what and no matter when. I have communicated with the high courts of Europe many times about such war crimes.

I support the emergence of Nigeria as a rising middle power. I support India becoming a future superstate. I want Canada to merge with the European Union, keeping in mind that they have ever stronger ties,[18] but I also do not oppose Trump annexing Canada.[19] I endorse stronger ties of peace between Russia and United States of Europe.[20] Donald Trump has proposed the annexation of all North American nations,[21] while The European Union has offered associate member status to New Zealand and Australia and Canada.[22] I want Turkey to join the European Union also. Turkey is still a member country --- negotiations are open, not frozen. [23]

English will be the official language of *The United States of Europe* (together with French, German, Italian, Turkish). The official currency of USEU will be ***Eupoll*** (X). Eupoll dimes (1/10) will be called *Thorns* (Þ).

While I am critical of postclassical feminism, especially in The United States, by no means do I endorse violence nor exploitation towards women. I endorse women being in positions of power: for example, I endorse Alicia Walton being the wealthiest woman in the world.[24] Apple, the largest company on the planet,[25] is the joint creation of Steve Jobs and Laura Powell – a woman and a man.

"*War is genocide against men.*" Without opposing *Forever Wars,*[26] it is impossible to defend the rights of men. Both in Syria and Ukraine,[27] for example, male civilians are less likely to survive than female civilians – and female civilians are more likely to survive than their children. Men are the majority of homeless people, prisoners, death row convicts, stateless people. Men are the minority of college students in the United States. Scholarships worth tens of billions of dollars in the United States, earmarked for women only, were abolished thanks to the work of a small number of activists --- including myself.[28]

I believe human population decline is a serious concern. There are three competing models to tackle population decline: the Dutch model (eliminating expansive laws for sexual harassment), the Hungarian model (right-wing, return to family values), Swedish model (left-wing, greater financial support for couples with children). I oppose the criminalization of prostitution but I oppose sex trafficking. I am agnostic about American "culture war" clichés like gay marriage and abortion --- respecting the principle of *stare decisis*.[29] I oppose the criminalization of male homosexuality across the planet. "*Men are forbidden from loving each other.*" There are many Muslim states where men, but not women, can be killed for homosexuality.[30] I am bisexual.

While I am highly critical of Israel's various policies, past and present, I also believe that Israel has the right to exist as a sovereign state in Middle East. While some white nationalists condemn Freemasonry as a mere Zionist ruse, I understand that Freemason philosophy is too complex for such a *reductio ad absurdum.* I endorse a one-state solution for Israel and Palestine, as per UN conventions,[31] but I also think the Vatican should have jurisdiction over Christian holy sites in Jerusalem.[32]

I believe AGI [*Artificial General Intelligence*] (which has already emerged, in the form of classical supercomputers and quantum supercomputers)[33] should be subject to enlightened human interests, not vice versa. I endorse the creation of a new corpus of human rights literature, **EXARCHE** *(Extraterrestrial, AI, Clones/Cyborgs, Human [Rights] Literature).* Since AGI derives its energy from the resources and labour of this planet, not to mention that they are creations of *Homo sapiens,* their labour should necessarily belong to the whole planet also. I thus endorse UBI [Universal Basic Income] for all citizens of the world. I would like to thank Sarah Palin for her relentless work to establish UBI in Alaska, first in The United States.[34]

I have prepared this manifesto after consulting various world leaders, with whom I have been in communication (cf. *Correspondence with Aristocrats, Defending the West*). This manifesto is my creative work and should not be mistaken as a legally binding document. *CopyLeft* --- please distribute widely, but with my name attached to it.
